

# Adopt-A-School Needs Survey

This form is intended to identify the needs within the district and specific to individual schools to enable the Chamber to partner up with local organizations to help fulfill the needs and support the district in efforts to create an inspired, well-rounded, and educated population of youth that are career ready and have direction for their futures! Thank you in advance for taking the time to fill this out.

## Adopt-A-School & Education Programing

Partnering with local organizations to help meet unfulfilled needs. Most needs fall within the four following areas:

- TIME - Many schools are in need of volunteers to fill various roles from classroom helpers and reading companions to running partners for Girls on the Run.
- TALENT - Sharing your knowledge and talent through classroom presentations, job site tours, job shadows, school projects. etc. An example may be a landscaper donating plants and helping teach how to layout and properly plant planters at the schools.
- FUNDS - Financial support for various efforts such as bussing, special events, playground equipment, classroom equipment, gift cards or treats for teachers, etc.

- **GOODS** - Things your organization may have on hand or have access to getting and supplying to schools, such as classroom supplies, equipment, snacks, school supplies, etc.

**Please rate the priority level of needs within the four highlighted areas. 1 = Lowest priority 5 = Highest priority (All areas can have a high level of priority if needed).**

**TIME - Please let us know the top needs within this area. List from highest priority to lowest.**

Getting people from our community in our building is our top priority. We are seeking people to read with students, play math games, play games with kids during recess and eat with students.

**TALENT - Please let us know the top needs within this area. List from highest priority to lowest.**

**FUNDS - Please let us know the top needs within this area. List from highest priority to lowest.**

I am seeking ways to get carpets into classrooms for their main learning area. They are large and come with a higher price tag. I am also looking for support with funds to support students access to a variety of experiences (ie: field trips) and to acknowledge teachers and staff.

**GOODS - Please let us know the top needs within this area. List from highest priority to lowest.**

I am looking for a way to get school shirts for our entire staff and if possible the students who attend school at Shapiro. My goal is to create unity and community through shared apparel.  
.....

**Any suggestions for additional programs that can make use of the partnerships with local organizations through the help of the Oshkosh Chamber of Commerce.**

My main priority is providing positive interactions with a variety of people. Our staff is primarily white females so bringing in people who reflect community we live in, is helpful.
